RESEARCH STATEMENT

My research focus on computer vision, deep learning, and artificial intelligence, with a particular concentration on *achieving human-like visual intelligence through data-centric methodologies*. This entails exploring:

- (1) **Generation** and **manipulation** of 2D, 3D, and 4D visual data,
- (2) Enhancement of knowledge sources through **data augmentation**,
- (3) Acquisition of a more profound **understanding of data's role** via cognitive perspectives.
