EDUCATION

University of Oxford PhD (Dphil) in Computer Vision Supervised by Prof. Philip Torr	01.2024 – ongoing Oxford, UK
Australian National University Bachelor of Information Technology (Honours) GPA: 3.95/4.00	02.2019 – 07.2023 Canberra, Australia First-Class Honours

Research Interests

My research focus on computer vision, deep learning, and artificial intelligence, with a particular concentration on studying data. This entails exploring:

- (1) Generation and manipulation of 2D, 3D, and 4D visual data,
- (2) Use augmented, synthetic, and distilled data for training machine learning systems,
- (3) Understand the **role of data** through cognitive perspectives.

I am also interested in extending my research to other scientific domains, such as exploring the applications of AI in the field of health and biology.
